### Touch kit compatibility

Touch screen overlay kits are available for 55" and 65" screen sizes. The touch overlays are easy to install, and transforms into interactive displays\*, which can be used in applications such as meeting rooms, huddles spaces, self-services kiosks and way finding solutions.

## Design Features

New Slim Design with Slim D-LED Technology

The perfect combination of style and value. D-LED backlight technology combined with specialized cabinet design, provides a slim depth of 63mm.

The sleek design has a super slim bezel, flat sides and minimal depth making it adaptable to almost any installation location, and can be mounted in either landscape or portrait orientations.

# Technologies

Includes QLED and Wide Color Gamut (WCG) options. with these new technological approaches, our displays brings an even greater array of colors to the table and increases the quality of reproductions of colors on the screen, primary colors red, green and blue are deeper and secondary colors magenta, cyan and yellow are much more richer. PRI

QLED & WCG displays provide the best colors performance on the digital signage world.

## Open Platform Support

Our SoC supports API ( Application Programming Interface) for solution providers/integrators to develop and intergrate any HTML-5 based applications to be installed and used on our displays.

## SW Features

Built-in APIs for web applications

## Auto Launch

The TECHNO Displays incorporate auto launch features which allow end customers to automatically present content from USB Media, or by specifying a URL to run in full screen browser mode.

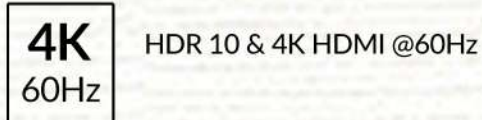

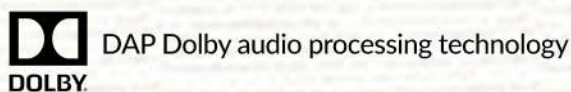

## Embedded CMS

Embedded content management software supports playback library, ready templates, and scheduler. with its simple and intuitive menus and layout options, It is effective for small and medium enterprises.

## External Control

The TECHNO displays allow customer to control and monitor the displays externally using the wide range of RS232 OR LAN control commands, along with snmp compatibility.

Note. Inputs are dependent on model

## FEATURES

### 4K HDMI @60Hz

- Display Control
- Scheduler
- USB Auto-Play
- USB Cloning
- USB Operations
- USB Information
- USB Safe Eject
- Auto-Launch
- Boot-up Picture
- Brightness Scheduling
- Sensor Compatibility
- 30 Tilting Installation
- Detachable Logo
- Detachable Power Cord

### OSD Rotation

- Pixel Shifting
- Signal Failover
- Input Search
- IP Streaming Support
- Playlist Creation
- SoC Content Management
- HTML5 API Support
- HDMI Wakeup
- HDMI CEC
- HDMI Auto-Switch
- Improved UI
- Color Calibration (VW)
- HDMI Switching
- Professional Design

### Buil-in WiFi

- Built-in Bluetooth
- Longer Life Span
- OPS/SDM support options
- Touch Support
- USB Secure Cover
- Carrying Handles
- IR Extender
- Hidden Embedded
- IR Option
- Button Lock
- RCU Lock
- Menu Lock
- Device ID
- Display Lifetime

### Serial Number

- Software Upgrade
- Start URL
- OPS/SDM Status
- OPS/SDM Power Control
- Power-up Mode
- Power on Delay
- Video wall settings
- Daisy chain
- Volume Limit
- Startup Volume
- Headphone Volume
